

Rosie Treasurer

COACHING

ROSIE TREASURER – CV

SUMMARY

As an Accredited Associate Coach with the International Coaching Federation, I have established a coaching business to build on my experience as an accomplished senior HR professional in London and Geneva and my time as a director and day-to-day manager of a small ecommerce and physical retail business.

My focus is executive and business coaching, particularly in the areas of career transitions, work/life balance and improving working relationships.

ABOUT ME

A natural empathiser with people at all stages of career from new manager to company director/CEO. I am an insightful and emotionally intelligent listener, an enthusiastic and organised list maker (and ticker) and a determined hard worker.

I have an outgoing and considerate personality, am adaptable and reliable, and I set high standards for myself. I find coaching and mentoring very fulfilling. I value keeping in touch with former colleagues, many of whom I still coach through their career challenges and life changes.
